=)

On a related note, I also looked for my notes with the Utah minor sources supervisor on the oil and gas permitting/AO process. It appears I wrote those down hardcopy, so will bring those with me on Monday. (Provided I find them. =)

Yeah, I just searched my inbox thinking maybe you sent me a copy at some point, but I don't see anything. (womp womp)

Yeah, just saw that folder. Bugs the crap out of me I can't find this file I was working on!

Thanks for collecting the other ones in 1 spot.

Lol. Thanks! We need to get those gas meters working!

I'm not sure where your assembled lists ended up, but I just dropped the most current versions of each company's spreadsheet that I have onto the I: drive.

I:\Restricted Share\CAA Oil and Gas\UintaBasin2018\Tanks Inspections June 2018\UT OOOO-OOOa Spreadsheets

I had started assembling the lists the companies sent us, I think.

Normal HAZWOPER guy says: <https://www.safewareinc.com/>

=)

Do you mean the lists that the companies sent us or the ones you used for targeting the original inspections?

Is the normal HAZWOPER guy doing your class? If so, ask him where he recommends ordering replacement sensors for the gas meters (we talked about them for way too long – my fault – in our HAZWOPER a couple of weeks ago).

Hey there—sitting in HAZWOPER. Fun fun.

For the life of me, I can't find my company sources listing I was assembling (trying to prepare for calls with the State on Monday). Was I the only one keeping a comprehensive list?

Trying to determine what OOOO/a operations our companies had on State lands.

Thanks,
J

Joe –

Here are the summary tables I put together – needs some refining, but we can discuss it on Monday.
